

# BDG Dashboard™

## *Weather Threat Management Tool*

The rise in global, weather-related, business damage, loss, and closure is undeniable. Weather threat reporting and information, specific to your business locations and mandates, helps to provide optimal business continuity. Reports and guidance must be available to management 24/7/365 in order to protect business assets, personnel, and manage ongoing operations. StormGeo's Business Decision Guidance Dashboard is a central operating view of client assets and locations to facilitate severe weather preparedness planning, action initiation, and execution.

### **BDG Dashboard Benefits**

- Delivers up to the minute weather threat status and risk analysis to assure severe weather preparedness.
- Provides a central operating view of client assets and locations to enable informed business decisions.
- Gives peace-of-mind to organization management, knowing their weather department is vigilant 24/7/365.

BDG Dashboard provides client location specific severe weather forecasts critical to saving lives, preserving property, and mitigating business loss.

### **BDG Dashboard Features**

- A custom online dashboard with secure client access, designed to monitor weather threats specific to client locations.
- Includes hour-by-hour, color-coded, five-day weather threat assessment charts (e.g. green, yellow, red).
- Presents interactive, hierarchical, shareable graphical displays of storm components with analytical charts and maps.
- Delivers complete location-specific risk analysis summaries, with arrival time and probability of occurrence of key weather threats and worst-case scenarios.
- Offers comprehensive overview basin forecasts, storm-specific forecasts, and site-specific forecasts.
- Generates email or text alerts for new storm systems or changes to existing systems.

*StormGeo is your  
24/7/365 weather  
department protecting  
personnel, property,  
and profits.*

## Onshore Solutions

StormGeo Onshore Solutions are a full suite of weather preparedness services with expert meteorologist guidance and support for every weather threat.
