

ImpactReady™ Hurricane Preparedness

Employee training and response plan testing

In concert with expert business continuity planning services, StormGeo offers several services to educate and train employees, executives, and crisis management staff on hurricane readiness best practices and action items.

Employee Hurricane Preparedness Presentations (EHPPs)

Educate employees about hurricane safety and readiness with this 45-60 minute presentation, given by a team of StormGeo expert meteorologists. Offered on-site or remote via webinar.

Presentation includes

- Pre-season home preparation
- Evacuation and ride-out checklists
- Post-storm recovery efforts
- Exclusive preview of the tropical weather season
- An informative question and answer session

Hurricane Drills

Hurricane drills are designed for crisis management teams to exercise hurricane response plans, run tabletop exercises, and ultimately help your organization prepare for and respond to a potential tropical threat. Offered on-site or remote via webinar.

Executive Hurricane Briefings

Seasonal hurricane outlook briefings are delivered to executive leadership and/or crisis management teams. Briefings are customizable to fit the needs of any size audience focusing on the current forecast outlook and established preparedness efforts.
